

# Investing, through cycles!

## What is the Buoyant Opportunities Scheme?

A “good company” is different from a “good investment” - valuations matter. Different market-capitalization indices, sectors and stocks operate in cycles.

A simple ‘Buy and Hold’ framework misses out on the inevitability of cycles. Our Core & Satellite framework allows us to adopt as “Aggressive stance” when we intend to generate superior returns, and adopt a “Defensive stance” when we want to protect capital.

Overall, it results in superior risk-adjusted long-term returns.
